

TRITON

TERMITE & PEST

Thank you for considering Triton to handle the pest control needs for your Palm Beach home. At Triton, we recognize just how important adequate termite and pest protection for your valuable home can be. Here are a few reminders about some of the benefits Triton customers can expect to enjoy:

- * Routine pest control services will be conducted on a quarterly basis. In addition, you are entitled to unlimited free extra services should you need it. If any of your covered pests return, so too will Triton. After all, that is what you have us for.
- * Extra services can be scheduled through the Contact Triton link on our website at www.gotrion.com. Your request for service will be responded to in a matter of minutes. You may also inquire about your account through the same link. And if email is not your thing, you can always call 561-452-7712.
- * At Triton, most of our communication takes place through email. Following each of your services, your work order and/or service invoice will be emailed to you. There you'll find such things as the products used during the treatment as well as their concentration and application site. Additional information may be available to you regarding any of your services upon request.
- * In addition to pest control services, Triton also has one of the most comprehensive, affordable termite prevention programs in our area. For a minimal treatment charge and a slightly higher quarterly fee, your coverage can be enhanced to include protection from all of Palm Beach county's termites. And remember, the best time to treat your home for termites is before they get in!
- * Flexibility and simplicity are the names of the game at Triton. Not only will you have the ease of capitalizing on our Automatic Payment Program, you'll also have the freedom to discontinue your service plan at any time.
- * Your satisfaction is our guarantee. As a Triton customer, we know that our job is not complete until your total satisfaction has been achieved.

Thanks again for considering Triton!
